

## **ON LINE SAFETY ADVICE FOR PARENTS**

### **Agree boundaries**

Be clear what your child can and can't do online – where they can use the internet, how much time they can spend online, the sites they can visit and the type of information they can share. Agree with your child when they can have a mobile phone or tablet.

### **Explore together**

The best way to find out what your child is doing online is to ask them to tell you about what they do and what sites they like to visit. If they're happy to, ask them to show you. Talk to them about being a good friend online.

### **Put yourself in control**

Install [parental controls](#) on your home broadband and any internet-enabled devices. Set up a user account for your child on the main device they use and make sure other accounts in the household are password-protected so that younger children can't access them by accident.

### **Use airplane mode**

Use airplane mode on your devices when your child is using them so they can't make any unapproved purchases or interact with anyone online without your knowledge.

### **Stay involved**

Encourage them to use their tech devices in a communal area like the lounge or kitchen so you can keep an eye on how they're using the internet and also share in their enjoyment.

### **Talk to siblings**

It's also a good idea to talk to any older children about what they're doing online and what they show to younger children. Encourage them to be responsible and help keep their younger siblings safe.

### **Search safely**

Use safe search engines such as [Swiggle](#) or [Kids-search](#). You can save time by adding these to your 'Favourites'. Safe search settings can also be activated on [Google](#) and other search engines, as well as [YouTube](#).

### **Check if it's suitable**

The age ratings that come with games, apps, films and social networks are a good guide to whether they're suitable for your child. For example, the minimum age limit is 13 for several social networking sites, including Facebook and Instagram. Although sites aimed at under-10s like [Moshi Monsters](#) and [Club Penguin](#) also have social networking elements.
